

Agenda Item 15
Calne Without Parish Council
9th December 2019

Derry Hill and Studley: Noticeboards and cycle and footpath signage

1. Report by Cllr French from the West Ward Councillors meeting on 26th November 2019

On Tuesday pm Alan, loan and I looked at possible locations for a Calne without notice board in Derry Hill.

It was thought the best position would be outside the Post Office, with a fallback being alongside the defibrillator telephone box. I spoke to the post office owner this morning and showed him a picture of the Stockley board. He is considering it and I will see him again in the next few days and relay his response.

We progressed to the cycle track where Keith was able to join us. loan has a map/diagram of the route which he will forward to you. We discussed signage and thought that a wooden pointer would be preferable in positions other than the A4 where the usual metallic ones would be more appropriate.

Finally, we looked at positioning of a notice board for Studley and decided the best and safest place was adjacent to the mailbox, with a fallback opposite the Methodist Chapel parking area.

2. Noticeboard cost and style

The wooden noticeboards which are the preferred option would be similar to that used at Stockley and shown here. The Stockley and Lower Compton Noticeboards cost £810.00 each.

Recommendations:

1. That the Parish Council approve in principle the provision of two wooden noticeboards, one for Derry Hill and one for Studley at an estimated cost of £850.00 each. The locations of the noticeboards to be approved, subject to the agreement of the landowners, with the Council's preferred options being at the Post Office in Derry Hill and by the post box in Studley.
2. That the Council bring forward £1700 of Community Infrastructure Levy (CIL) Funding to the Community Improvements budget heading for 2019/20 to cover the cost of the noticeboards.

Budget: Community Improvement CIL brought forward to 2019/20

Power: Local Government Act 1972 s 142
