

Calne Without Parish Council

12th October 2020

Agenda Item 9.2 Studley Crossroads Bus Shelter -Update

Introduction

The Parish Council has been consulted by Crest about moving the bus shelter on the Derry Hill side of the A4 from its current position to a position on the grass to the east of the current location. This is to facilitate access for cyclists past the bus stop on the shared path.

The new location

Consultation

Crest have also consulted the Management Company for the residents of Chapel Street who have responded favourably.

Parish Council decision on 14th September

The Parish Council resolved to write to Crest and Wiltshire Council about all matters arising from the Road Safety Audit before commenting on the bus shelter move.

Update from Wiltshire Council

Officers note the issues continually raised by the Parish Council over the RSA and have offered reassurance that the matters raised under the RSA3 instructed by the developer includes the matters raised by the Parish Council under their own RSA.

Officers politely ask the Parish Council in the meantime to make a decision over the re-location of the bus stop. The developer is just waiting confirmation of the Parish council's acceptance and are ready to re-locate at their own expense (and outside of the approved drawing) Officers would hate to miss the opportunity to have it undertaken. Please note if the bus stop is not relocated signage can be erected and cyclists will be directed to dismount at the bus stop and walk around with their bike so if the Parish Council is not happy with its relocation the proposal can still proceed.

Recommendation: That the Parish Council consider the relocation and submit views to Crest.
